Subject: MS case is far more than Antitrust

--

<http://www.tupbiosystems.com/articles/win_xp.html>Microsoft case is far more than Antitrust. Please, read the articles below:

Microsoft intentionally keeps the front door of Windows XP unlocked and wide open. For which purpose?

http://www.tupbiosystems.com/articles/win_xp.html

Microsoft has been clearly and carefully informed that they are making a huge mistake with security in Windows XP but they show no intention of responding to this now very visible threat. The question is for what purpose does Microsoft intentionally keep the front door of Windows XP unlocked and wide open? Should be a serious reason.
